KENTUCKY eHEALTH SUMMIT

2015

Wednesday, September 30, 2015

Ballroom A & B, Sloan Convention Center

8:30 a.m. Welcome!!

Polly Mullins-Bentley, KY Health I.T. Coordinator and Deputy Executive Director
KY Health Information Exchange

8:35 a.m. State Innovation Planning for the Next Generation of Healthcare

Eric Friedlander, Deputy Secretary
KY Cabinet for Health and Family Services

High-level overview of state-level activities related to eHealth and State Innovation Model (SIM) planning. Deputy Secretary Friedlander will share how stakeholder input has been used to develop the Kentucky 'Value-based Health Care Delivery and Payment Methodology Transformation Plan' submitted to CMS in September, 2015. This work is a result of year-long activities with stakeholder meetings and workgroups to discuss access to care, integrated/coordinated care, quality & safety of care, and how health I.T. can support and facilitate. Deputy Secretary Friedlander will set the stage for the remainder of the conference and day!!

9:00 a.m. National eHealth Agenda

Jess Kahn, CMS Director of Data and Systems
Center for Medicare and Medicaid Services

Jess Kahn, nationally renowned expert on Medicaid and health information technology, will follow up on Deputy Secretary Friedlander's comments by providing an overview of what is going on at the national level regarding eHealth, SIM and the Affordable Care Act (ACA).

Panel/Fireside Chat: Aligning the National & State eHealth Agenda

Dr. Allen Brenzel, Medical Director
CHFS, KY Department for Behavioral Health,
Developmental and Intellectual Disabilities

Lisa Lee, Commissioner
CHFS, Kentucky Department for Medicaid Services

Dr. Kraig Humbaugh, Senior Deputy Commissioner
CHFS, Kentucky Department for Public Health

Moderator

Dr. Carol Steltenkamp, Chief Medical Information Officer

UK HealthCare

The Commissioner for Medicaid will present a high level status on the ACA implementation in Kentucky, including the Medicaid expansion, and the impact identified to date. This information provides the platform for discussion regarding eHealth needs and progress in the state. Subsequently Kentucky state leaders will share brief updates on eHealth progress in public health, behavioral health, and Medicaid systems. The Medical Director for Behavioral Health will share activity related to adoption of health information technology and electronic health records in behavioral health facilities across the state. The Senior Deputy Commissioner for Public Health will share progress on the EHR rollout in local health departments across the commonwealth and the significance of adoption of health I.T. in the public health environment.

10:45 a.m. Break/Exhibits

Ballroom C & D, Sloan Convention Center

11:15 a.m. Kentucky Health Benefit Exchange: Update 2015

Ballroom A & B, Sloan Convention Center

Nicole Comeaux, Deputy Executive Director

KY Office of Health Benefit & Information Exchange

Bill Nold, Policy & Technical Advisor

KY Office of Health Benefit & Information Exchange

*The Deputy Executive Director & Policy/Technical Advisor will provide an update and status on the most successful state-based health benefit exchange in the nation: **kynect***

NOON

Lunch

Ballroom A & B, Sloan Convention Center

Luncheon Address: Challenges and Opportunities for Kentucky

Dr. John Langefeld, Chief Medical Officer

CHFS KY Department for Medicaid Services

The Chief Medical Officer for Medicaid will share current health rankings for our state and outline the many opportunities we have for improving our health and wellness here in the Commonwealth of Kentucky. Dr. Langefeld will expand upon the opportunity for integrated data sets to support quality data efforts.

1:30 p.m. – 2:30 p.m. Concurrent Workshops:

Workshop A: HIPAA Privacy & Security

Meeting Room 1, Sloan Convention Center

Karen Chrisman, Staff Attorney and Privacy Officer

KY Office of Health Benefit & Information Exchange

Richard Chapman, Staff Attorney and Privacy Officer

UK HealthCare

This session focuses on lessons learned from responding to privacy and security incidents. This session intends to provide practical, pragmatic, feasible, and workable advice and solutions for incident response.

Workshop B: Meaningful Use 2015 and What's Coming in Stage 3

Meeting Room 2, Sloan Convention Center

Andrew Bledsoe, Executive Director

NeKY RHIO, Northeast KY Regional Health Information Organization

Carla Cooper, Project Manager

KY Medicaid EHR Incentive Program

Jennifer Wilder, Meaningful Use Advisor and Direct Secure Messaging Coordinator

KHIE, KY Health Information Exchange

Lynn Grigsby, Project Manager

KY REC, KY Regional Extension Center

Brent McKune, Health IT Advisor

KY REC, KY Regional Extension Center

Moderator

Dr. Martha Riddell, Director, Associate Professor, Meaningful Use Advisor

University of Kentucky College of Public Health, KY Regional Extension Center

This session will focus on key hot topics and address MU burning issues, the future of MU, proposed/finalized federal rule makings, and the overall health IT landscape as it pertains to MU and the Centers for Medicare & Medicaid Services electronic health record (EHR) Incentive Program. The format of this session has evolved over the last year into an interactive and comprehensive meeting style, with a moderator and panel of MU experts and specialists as the layout.

Workshop C: Quality/QIO Scope of Work

Meeting Room 3 & 4, Sloan Convention Center

Margie Banse, Quality Data Reporting Manager

QSource

Cindy Todd, Quality Data Reporting Manager

QSource

This session will focus on Medicare current and future initiatives and the impact upon eligible providers. Programs to be discussed include Physician Quality Reporting System (PQRS), Value-Based Modifier, Meaningful Use eCQMS, and the proposed "Doc Fix" bill. The common thread of each program is quality of care. Because patients do not receive care in silos, coordination of care is the key to success. Qsource, Kentucky's Quality Innovation Network-Quality Improvement Organization (QIN-QIO) will also highlight its work with care coordination, creation of communities, and their successes.

Workshop D: KHIE Community Record for Coordination of Care: VHR Demonstration

Salon A, Holiday Inn University Plaza Hotel

Charlese Blair, Healthcare Data Administrator & Intake Coordinator

KY Health Information Exchange

Join Charlese Blair, KHIE HealthCare Data Administrator, in a demonstration of KHIE's Community Record, the Virtual Health Record (VHR). A secure, web-based portal, the VHR enables healthcare providers to view a patient's consolidated health history anywhere, anytime. It will display an aggregation of reports, results, and patient demographics that have been shared by other participating providers.

**Workshop E: KY State Innovation Model (SIM) Overview;
Discussion of Data & Technologies Needed to Support a Transition to Value-Based Care**

Meeting Room 5, Sloan Convention Center

Patricia MacTaggart, Senior Advisor

Office of the National Coordinator for Health Information Technology

Dr. John Langefeld and KY SIM Team

CHFS, Department for Medicaid Services

On December 16, 2014, the Kentucky Cabinet for Health and Family Services (CHFS) received a \$2M State Innovation Model (SIM) Model Design grant from the Center for Medicare & Medicaid Innovation (CMMI) within the Centers for Medicare & Medicaid Services (CMS). CMMI created the SIM initiative for states that are committed to planning, designing, testing, and supporting the evaluation of new payment and service delivery models in the context of larger health system transformation, with a special focus on population health improvement. The objective of Kentucky's SIM Model Design grant is to engage a diverse group of stakeholders, including but not limited to public and commercial payers, providers, advocacy groups, employers, and consumers to develop a State Health System Innovation Plan.

This breakout session will provide an overview and status on the Kentucky SIM initiative and activity that has occurred in 2015 to date. A multitude of stakeholder and workgroup meetings have been conducted that has produced significant information to help guide Kentucky towards value-based care models across the state. Hear Kentucky Cabinet leaders share this information and have the opportunity to ask questions and engage in open discussion regarding the future of the Kentucky healthcare!!

2:30 p.m. Break/Exhibits

Ballroom C & D, Sloan Convention Center

3:00 p.m. – 4:00 p.m.

Workshop A: HIPAA Privacy & Security

Ballroom C & D, Sloan Convention Center

Workshop B: Meaningful Use

Meeting Room 2, Sloan Convention Center

Workshop C: Quality/QIO Scope of Work

Meeting Room 3 & 4, Sloan Convention Center

Workshop D: KHIE Community Record for Coordination of Care

Salon A, Holiday Inn University Plaza Hotel

Workshop E: KY State Innovation Model (SIM) Overview

Meeting Room 5, Sloan Convention Center

Make the Switch to eClinicalWorks

Electronic Health Records • Patient Engagement • Population Health • Revenue Cycle Management

Why eClinicalWorks?

- **Engage your patients** - open access scheduling, kiosk, and televisits
- **Document your way on your device** - use natural speech, touch, or template based entry
- **Clinical rules engine** - define rules for accurate coding and automate task creation for follow-up care
- **Billing rules engine** - centralized work queue for collections, refunds, and claim alerts
- **Value based contracts** - PQRS, PCMH, HEDIS, Meaningful Use, and other Pay for Performance initiatives
- **Private grid cloud** - lower your IT cost, receive free updates on your schedule

Switch to eClinicalWorks! For more information call: 866-888-MYCW

2015 KY eHealth Summit

SPEAKER BIOS

Polly Mullins-Bentley, RN, RHIT, CPHQ

*KY Health I.T. Coordinator and Deputy Executive Director
KY Health Information Exchange*

Ms. Bentley has a number of years of healthcare experience including clinical nursing (emergency department), health information management, quality & performance improvement, case management, regulatory compliance (including HIPAA Privacy & Security), and clinical information technology.

Polly's current post is with the Kentucky Health Information Exchange (KHIE) in the Kentucky Office of Health Benefit & Information Exchange in the KY Cabinet for Health & Family Services. The primary focus of her work currently is on the state-wide initiative for health information exchange. She is working in the capacity of State Health I.T. Coordinator to facilitate the KHIE Strategic & Operational Plan, which is focused on connecting all providers across the state of Kentucky to the health information exchange

over the coming years. Polly and her team also provide support for the KY Medicaid EHR Incentive Program to assist providers in meeting meaningful use requirements.

Prior to this Polly spent the past ten years as 'Director of Clinical Information Systems' for Appalachian Regional Healthcare, where she was responsible for the implementations of a number of clinical systems including a physician portal, document-imaging/EMR, PACS, physician practice EHR, and Emergency Department EHR (both including CPOE). She also served in the capacity of the organization's HIPAA Security Officer.

Eric Friedlander

*Deputy Secretary
KY Cabinet for Health and Family Services*

Eric Friedlander was appointed Deputy Secretary of the Cabinet for Health and Family Services in 2010 by Governor Steve Beshear.

A state government employee since 1985, Deputy Secretary Friedlander has spent his entire public service career working for agencies within the Cabinet for Health and Family Services. The majority of his work with the Cabinet has been in the area of Health Services - from the Office of the Inspector General to the Office Family Resource and Youth Services Centers. Friedlander was appointed as the Executive Director of the Commission for Children with Special Health Care Needs by three different governors. In his role as the Commission Director, he oversaw a

wide variety of health services for children with complex medical needs.

One of the Cabinet's most high-profile agencies is kynect, Kentucky's state-based health benefit exchange, which has achieved tremendous success and received widespread national recognition for its full participation and successful implementation of the Affordable Care Act. Through Medicaid expansion and kynect more than 413,000 Kentuckians were newly insured from October 1, 2013 through April 15, 2014.

During his tenure, Friedlander has been responsible for the oversight of the budgets, contracts, regulations and legislation, as well as serving as an adviser on a variety of public policy issues. Friedlander was also integral to the transition from a fee-for-service model to managed care for the majority of Kentucky's Medicaid population, which has saved taxpayer dollars and improved member health outcomes.

A native of Louisville, Friedlander is a graduate of Brown High School and Antioch University, where he earned a degree in Economics.

Jessica Kahn, MPH

***Director, Data and Systems Group
Centers for Medicare & Medicaid Services***

Jessica Kahn serves as the Director of the Data and Systems Group (DSG) in the Center for Medicaid and CHIP Services at CMS. The Data and Systems Group is responsible for the Medicaid Statistical Information System (MSIS) and its successor, T-MSIS, Medicaid/CHIP eligibility systems, Health Information Technology (IT), state ICD-10 readiness, Medicaid Management Information Systems and other data and analytics efforts to support the Medicaid and CHIP enterprise. Jessica has a Master's degree in Public Health from Tulane University and has been working in both international and domestic healthcare for federal or state government for over 20 years, starting out as Peace Corps volunteer in West Africa.

Allen Brenzel, M.D., MBA

***Medical Director
CHFS, Department of Behavioral Health and Developmental Disabilities***

In 2010 Dr. Brenzel was appointed the Medical Director for the Department of Behavioral Health and Developmental Disabilities (BHDID) with the Cabinet for Health and Families Services (CHFS) for the Commonwealth of Kentucky. Prior to 2010 he served as the Medical and Psychiatric Consultant for the Department of Community Based Services (DCBS) and as the Director of the Division of Child and Adolescent Psychiatry at the University of Kentucky.

He is Board Certified in Adult and Child Psychiatry as well as Pediatrics. He completed his Master in Business Administration in 2006. He is a native Kentuckian having attended University of Louisville

for Medical School and University of Kentucky for Residency Training. He joined the UK faculty in 1993 where he is an Associate Professor of Psychiatry and Pediatrics.

Dr. Brenzel has developed a breadth of knowledge and experience in mental health, substance abuse and developmental disabilities. He frequently provides trainings and consultations across systems of care that have included Behavioral Health, Child Welfare, Juvenile Justice, Education and the Judiciary. Early identification of children and families at risk, and implementation of evidence based interventions across the lifespan have been the focus of his work. He is uniquely trained to bridge gaps between medical and mental health systems. It is well known that he excels at working in multidisciplinary teams and building effective systems of care.

Lisa Lee

***Commissioner
CHFS, Department for Medicaid Services***

Lisa Lee is the Commissioner for the Department for Medicaid. She also serves as the Program Director for the Kentucky Children's Health Insurance Program (KCHIP). Previously to being named Deputy Commissioner, Ms. Lee served as Director of Provider Operations where she oversaw a variety of Medicaid programs specifically aimed at improving the health of Kentucky Children. Programs under her direction include the Early and Periodic Screening Diagnosis and Treatment program (EPSDT), school based health services, Health Access Nurturing and Development Services (HANDS), and First Steps. In addition, Ms. Lee oversees a variety of health care programs that provide services to the entire Medicaid population, such as dental, physician, transportation, primary care centers, vision, hearing,

Federally Qualified Health Care Centers, and Rural Health Clinics.

Ms. Lee has worked for Kentucky State Government for 22 years. She has worked with the Department for Medicaid Services for 14 years and served as Program Director for KCHIP for 6 years. She played a key role in streamlining the enrollment process for children in KCHIP and Medicaid in 2008 which led to enrollment of an additional 60,000 children in Medicaid and KCHIP. She received her degree from Kentucky State University.

Kraig Humbaugh, M.D., MPH

*Senior Deputy Commissioner
CHFS, Department for Public Health*

Dr. Kraig Humbaugh, Senior Deputy Commissioner at the Kentucky Department for Public Health, has been with the department for 11 years. He began his career with the department as Director of the Division of Epidemiology and Health Planning and also held the position of Director of Public Health Preparedness. Prior to joining the state health department, he served as Interim Director of Health at the Louisville (Ky) Metro Health Department, where he had formerly been the medical director.

As a board-certified pediatrician, Dr. Humbaugh has practiced medicine both at home and abroad, in addition to filling academic and public health roles. Dr. Humbaugh earned an undergraduate degree from Vanderbilt University, studied as a Fulbright Scholar at the University of Otago in New Zealand, received his medical degree from Yale University, and holds a Master of Public Health from the Johns Hopkins University.

Carol Steltenkamp, M.D., MBA, FHIMSS

*Chief Medical Information Officer
University of Kentucky HealthCare*

Dr. Carol Steltenkamp is the Chief Medical Information Officer (CMIO) at University of Kentucky Healthcare and a practicing pediatrician. Dr. Steltenkamp previously served as the Vice Chair of the Healthcare Information and Management Systems Society (HIMSS). She was instrumental in the development of UK HealthCare's data warehouse, a system incorporating dynamic data mining capabilities and maintaining a pleasant and highly functional user interface. Dr. Steltenkamp is the Principal Investigator and Director of the six million dollar grant award from the Department of Health and Human Services, Office of the National Coordinator. This funding is used to develop and maintain the Kentucky Regional Extension Center, a Health Information Technology staff resource used by 2,500+ Kentucky health professionals in

the adoption, implementation and "Meaningful Use" of an Electronic Health Record (EHR). Dr. Steltenkamp is on the frontline of EHR implementation throughout the Commonwealth, and has previously led successful, nationally-recognized EHR implementations across multiple sites of an integrated delivery network. Dr. Steltenkamp has conducted research related to medication error reporting and clinical biomedical informatics.

Dr. Carol Steltenkamp was born in Covington, KY. She graduated Magna Cum Laude from Xavier University with a B.S. in Natural Science. Next, she completed her medical degree from the University of Cincinnati, College of Medicine and then graduated with honors from the University of Kentucky in Pediatric Medicine. She did her internship in pediatrics at the University of Kentucky and later joined as a full-time faculty member. Later, she completed her M.B.A. with a healthcare focus. Dr. Steltenkamp has received numerous honors including: Best Doctors National Award, 2007-2011; Physician Award for Excellence and Outstanding Achievement in Applied Medical Informatics, 2012 and the MediStar Hall of Fame Leadership in Healthcare Award, 2014.

Nicole Comeaux, JD, MPH

*Deputy Executive Director
KY Office of Health Benefit and Information Exchange*

Nicole Comeaux is the Deputy Executive Director of kynect, Kentucky's Health Benefit Exchange. Prior to joining kynect, in 2014, Nicole served as the Acting Deputy Director for the State Operations Group in CMS's Center for Consumer Information and Insurance Oversight (CCIIO). Also at CCIIO, from 2012-2014, she served as a Health Insurance Specialist, managing the federal oversight of the establishment of State-based Health Insurance Marketplaces in California, Kentucky and New Mexico. From 2010-2012, she served as a Health Policy Analyst in the Federal Office of Rural Health Policy within the US DHHS conducting analysis and revision of ACA regulations that impacted HRSA safety net providers and populations. Nicole earned her J.D. with a certificate in Health Law from Saint Louis University School

of Law, and her M.P.H. in Health Policy from Saint Louis University School of Public Health. She received her B.A. in Psychology from the University of San Diego.

Bill Nold, JD

Policy and Technical Advisor

KY Office of Health Benefit and Information Exchange

Bill is a lifelong resident of Louisville; he graduated from the University of Kentucky in 1968 with a BS degree in Mechanical Engineering. He graduated from the University of Louisville in 1974 with a JD Degree. In 2001, after 26 years of private practice, he became employed with the legal division of the Kentucky Department of Insurance as a staff attorney. In this position, his job duties primarily related to issues involving health insurance and worker's compensation insurance. In 2008, Bill became the director of the Health and Life Division within the Department of Insurance, where his job duties involved all aspects of health and life insurance regulation.

Bill is the former Deputy Executive Director of the Kentucky Office of Health Benefit Exchange and since retirement in August of 2014, serves as Policy Advisor to the Executive Director. The Office has been working over the last two year's to establish a state-based exchange that meets the requirements of state law and the ACA.

John R. Langefeld, M.D.

Chief Medical Officer

CHFS, Department for Medicaid Services

Dr. Langefeld joined CHFS June 1, 2013. He came to the Cabinet from his position as chief medical officer for Artemetrx, a Tennessee-based company with an office in Lexington that specializes in how data analysis can aid in accomplishing clinical quality outcomes and worked with many large employers, physician groups, and public entities.

Prior to Artemetrx, Dr. Langefeld was the medical director and vice president of healthcare management for Bluegrass Family Health in Lexington. He has also held several medical director and clinical positions. A Kentucky native, Dr. Langefeld completed his undergraduate work at Berea College, a Family Practice residency at St. Elizabeth Medical Center and served as an assistant professor at the University of

Kentucky Medical Center.

He currently also serves as Instructor in Family and Geriatric Medicine at the University of Louisville School of Medicine. He has a strong interest in using data and technology to support better decision-making in health care and areas of focus include clinical integration, population health, and medical informatics.

Karen Chrisman, JD, MA

Staff Attorney & Privacy Officer

KY Office of Health Benefit and Information Exchange

Karen Chrisman is employed as staff attorney and privacy officer for the Kentucky Health Information Exchange and the Kentucky Health Benefit Exchange, in the Division of Kentucky Electronic Health Information. Her work includes responsibility for KHIE and KHBE data agreements and the development and maintenance of privacy policies. She is primarily responsible for HIPAA privacy compliance standards and state and federal regulatory compliance for the Division.

Her previous employment was in the private practice of law in Kentucky in complex civil litigation, administrative law, products liability and insurance defense. She earned her undergraduate degree and her Master of Arts in Education from Eastern Kentucky University. Her Juris Doctor was obtained from the University of Kentucky.

She has published and lectured on health information exchange, and behavioral health records in a health information exchange before organizations such as HIMSS, the Journal of Healthcare Information Management, the American Bar Association, the National Council for Community Behavioral Healthcare National Convention and the KHIE eHealth Summit.

Richard Chapman, JD

Chief Privacy Officer

University of Kentucky HealthCare

Richard Chapman is currently the Chief Privacy Officer for University of Kentucky HealthCare. Prior to his time at the University of Kentucky, Richard was the Sr. Security Officer for the Kentucky Cabinet for Health & Family Services (CHFS). During his time at CHFS, Richard spent two years on the Kentucky Health Benefits Exchange as the Privacy and Security lead during implementation and the first two open enrollments. Richard also was involved in the Privacy and Security compliance requirements of the Kentucky Health Information Exchange during the development of the KHIE.

Andrew Bledsoe, MBA, PCMH, CCE

Executive Director

Northeast Kentucky Regional Health Information Organization

Andrew Bledsoe, MBA, PCMH CCE currently services as Executive Director for the Northeast Kentucky Regional Health Information Organization (NeKY RHIO). Mr. Bledsoe has worked in the NeKY RHIO for over three years. He began working as a Practice and Hospital EHR Consultant working to assist providers (both primary care and specialty) and critical access hospitals in attaining meaningful use. Mr. Bledsoe then became the Network Director for the Rural Health Information Technology Network Development program and has since been named Executive Director.

Andrew holds both a bachelor's and master's degree in Business Administration from Morehead State University. Mr. Bledsoe holds a certificate in Patient Centered Medical Home and HIPAA Privacy and

Security in addition to specialized training in; HL7, project management, Meaningful Use, patient navigation, and federal grant administration. Furthermore, he has completed the Workflow Redesign Specialist training from the ONC. He serves on the Board of Directors for the Kentucky Rural Health Association (KRHA) as well as the Chair of the Public Information Committee for KRHA.

Carla Cooper

Project Manager

KY Medicaid EHR Incentive Program

Carla Cooper is a Project Manager in the Office of Administrative and Technology Services (OATS) overseeing the Kentucky Electronic Health Records (EHR) Incentive Payment Program. This program enables Medicaid providers to adopt certified EHR technology and submit data for the purpose of achieving Meaningful Use of this technology in the healthcare arena. Mrs. Cooper's strong project management skills coupled with a solid foundation of IT knowledge, has enabled her to expand and share her expertise of the EHR Incentive Program with other states and U.S. Territories. She traveled to Hawaii to train staff members from the University of Hawaii at Manoa and the Pacific Territories on Kentucky's State Level Repository (SLR) application. The SLR was developed and maintained in house to successfully implement the EHR Incentive Program in the Commonwealth of Kentucky.

Mrs. Cooper is from Lexington, Kentucky and graduated from Midway College in Midway, Kentucky and holds degrees in Computer Information Systems (web publishing and programming tracks) and Business Administration. Her degree in Computer Information Systems was earned with honors.

She has lived in Georgetown, Kentucky for the last 10 years with her husband, two children and a dog. In her free time, she enjoys watching her daughter compete in Saddlebred horse shows and cheering for her son while he participates in his many sport activities.

Jennifer Wilder, MHA

*Meaningful Use Advisor and Direct Secure Messaging Coordinator
KY Health Information Exchange*

Jennifer Wilder serves as the Meaningful Use Advisor and Direct Secure Messaging Coordinator for the Kentucky Health Information Exchange (KHIE) in the Cabinet for Health and Family Services. Prior to serving in her current role, Jennifer was employed by the Kentucky Regional Extension Center (KY REC) housed at the University of Kentucky, as an Administrative Fellow specializing in Meaningful Use and Electronic Health Record (EHR) implementation and training. Jennifer earned her Master of Healthcare Administration from the University of Kentucky, College of Public Health, in Lexington, KY. Jennifer is committed to the integration of health information technology (HIT) for the improvement of public health outcomes, the reduction of health disparities, the reduction of healthcare costs and the expansion of

access to affordable, comprehensive care.

Lynn Grigsby, MSIS, MBA, MT(ASCP), CHPS, CPHIMS

*Meaningful Use Service Manager
KY Regional Extension Center*

Lynn Grigsby is the Meaningful Use Services Manager at the Kentucky Regional Extension Center overseeing all aspects of the Meaningful Use service delivery process including EHR selection, adoption and implementation as well as Meaningful Use registration, attestation, incentive optimization and workflow analysis. Previously, Lynn served in various roles at the University of Kentucky East Kentucky Family Practice Clinic and East Kentucky Family Medicine Residency Program, including Chief Information Officer for the FQHC UK North Fork Valley Community Health Center, Laboratory Supervisor, Policy Coordinator and Quality Improvement Coordinator. She earned her Master of Business Administration and her Master of Science in Information System's from Morehead State University and her undergraduate

degree from the University of Kentucky. Lynn's specialties include Meaningful Use advising, Workflow Assessment, Clinical Quality Improvement, Process Improvement and Policy Development, EHR Implementation and Healthcare Information Systems.

Brent McKune

*Senior Technical Advisor
KY Regional Extension Center*

Brent is a Senior Technical Advisor with the Kentucky REC. A graduate of the University of Kentucky, with a bachelor's degree in Decision Science Information Systems, Brent offers more than 16 years of experience in healthcare IT, starting with his role coordinating a centralized health information system for a large, and integrated hospital network. Brent recently returned to the REC from a role as a System Consultant Senior Analyst/Systems Operations Manager at Xerox Services in Frankfort, KY supporting the Kentucky Health Information Exchange.

Brent's primary focus at the Kentucky REC is assisting critical access hospitals (CAHs) and rural hospitals (RHs) in achieving meaningful use by providing them with advanced technical and meaningful use support. Brent has worked with numerous EHR's in hospital and provider settings in which he provided guidance and best practices for system implementation—while achieving meaningful use. Brent has also served as the REC's primary lead for a CDC grant aiding in the exchange of systemic therapy data for the Kentucky Cancer Registry (KCR) and the overall development of the Privacy and Security service line. Brent currently carries the AHIMA Certified HIPAA Privacy and Security (CHPS) and HIMSS Certified Professional in Healthcare Information & Management Systems (CPHIMS) certifications.

Martha Riddell, DrPH, MPH

*Associate Professor, Health Services Management Department; Director, Master of Health Administration Program, University of Kentucky; Meaningful Use Advisor
KY Regional Extension Center*

Martha C. Riddell is an Associate Professor in the Health Services Management Department of the University of Kentucky College of Public Health and the Director of the Master of Health Administration Program. Dr. Riddell also serves as a Meaningful Use Advisor at the Kentucky Regional Extension Center. Dr. Riddell received her DrPH from the University of North Carolina School of Public Health as a fellow in the Public Health Leadership Program.

Dr. Riddell joined the Department of Health Services Management in 2007 following a career in direct patient care delivery, managed care, and health screening and promotion. Dr. Riddell served in leadership and administrative positions with physician group practices, a health maintenance organization, and a non-profit health organization. Her interests include quality and performance improvement in public health delivery systems, eHealth initiatives, leadership development and management education.

Margie Banse, BA, AAS

*Quality Data Report Manager
QSource*

Margie Banse is the Quality Data Reporting Manager for Qsource. She has more than 25 years of experience in information technology ranging from programmer, support/implementation specialist and project management all in various industries. She has more than ten years experience in implementing large applications and providing training for those applications. She received her AAS degree from Elizabethtown Community College in data processing technology and her BA from Western Kentucky University majoring in Economics with a minor in Computer Science.

Cynthia Todd, MSN, RN

*Quality Improvement Advisor
QSource*

Cindy, as an extensive background in nursing management with an emphasis in acute care. She is a graduate of Spalding University, where she maintains an adjunct faculty position. Cindy has been working across the state of Kentucky for the past four years assisting in the formation of Care Transition Communities. She is currently working with four Care Transition Communities that cover over 33% of the Medicare Fee for Service Population in the state. Her focus over the next five years is

- to assist communities across the state to work together to breakdown silos
- to support the communities to provide the best care at the lowest cost
- to help improve the overall health of the Medicare beneficiaries in the state
- to assist healthcare providers to decrease unnecessary admissions and readmissions
- to build medication safety awareness and provide adverse drug event education across the state.

Cindy is currently employed by Qsource- the Quality Innovation Network- Quality Improvement Organization for the State of Kentucky.

Charlese Blair, CRT, CMA

*Health Data Administrator and Intake Coordinator
KY Health Information Exchange*

Charlese Blair serves as KHIE's Outreach Manager and Intake Coordinator, as well as the Training Facilitator for KHIE's Community Record, the Virtual Health Record/VHR.

As the Outreach Manager and Intake Coordinator, she facilitates the intake process for onboarding healthcare organizations for connectivity to the Kentucky Health Information Exchange. She coordinates the work of the KHIE Outreach Coordinators to ensure outreach strategy and activities are aligned with KHIE's goals and objectives.

Charlese is the facilitator of KHIE's Community Record, the Virtual Health Record (VHR) training program. She developed the training protocol necessary to train authorized users who access the HIE through KHIE's Community Record.

Patricia MacTaggart, MBA, MMA

*Senior Advisor
Office of the National Coordinator for Health Information Technology*

Patricia MacTaggart, Senior Advisor, Office of the National Coordinator, works with SIM States, such as Kentucky, on their health information technology needs to support the state's health care transformation and payment reform. A previous Minnesota Medicaid Director and Director at HCFA/CMS, Ms. MacTaggart also teaches State Health Policy and HIT Policy at George Washington University Graduate Program.

KHIE

KENTUCKY HEALTH
INFORMATION EXCHANGE

NOTICE TO PROVIDERS

Who are Attesting to Meaningful Use

Greetings! As we look forward to cooler temperatures here in the Commonwealth, it is time to think ahead to the end of this calendar year, as it pertains to Meaningful Use.

This is a very important notice to all providers who are participating in Meaningful Use. As the Public Health Authority for the state of Kentucky for public health measures within the CMS EHR Incentive Program, the Kentucky Health Information Exchange (KHIE) would like to remind you that a provider must have a signed Participation Agreement and signed addendum(s) on file with KHIE for each public health objective selected for attestation.

In an effort to assist you in meeting the CMS EHR Incentive Program Year 2015 deadline and be deemed a Meaningful User, KHIE is providing the following notice:

- All requests to connect to the Kentucky Health Information Exchange (KHIE) must be received no later than **December 11, 2015**.
- To be considered in KHIE's queue during your selected attestation reporting period, KHIE must receive a completed KHIE Intake Form from you. This form is available on our website or from the Outreach Coordinator assigned to your region of the state. To view this information, please visit our website at **www.khie.ky.gov**.
- Providers who complete and return the KHIE Intake Form by the December 11th deadline will be processed into our system. We will forward the KHIE Participation Agreement and addendums to you for signature. **The Participation Agreement and applicable addendums MUST BE RETURNED TO US BY DECEMBER 30th** (State Offices are closed on December 31st). It is your responsibility to ensure that we have received these agreements.
- Requests received after December 11, 2015, will be processed after January 4, 2016.

If you are already connected to KHIE, please ensure that all of your public health addendums have been signed and returned by December 30, 2015.

To review KHIE's general guidance in its entirety, please visit our website at **www.khie.ky.gov**.

CMS' official website for the Medicare and Medicaid EHR Incentive Programs can be found at **<http://www.cms.gov/EHRIncentivePrograms/>**.

PROVIDERS OF CARE HAVE NOW BECOME MANAGERS OF HEALTH

OPTUM™

People. Technology. Data. Action.

HEALTHIER IS HERE

The journey toward value-based care isn't easy. Providers who balance between today's world and the future of health care can thrive in the transition. As a health services and innovation company, we power modern health care by combining data and analytics with technology and expertise. It's how we help providers optimize performance today and successfully manage population health tomorrow. Because in the end, patients and providers have the same goal— long-term health.
